MULTIPLIERS
for
URBAN LOCAL
BODIES

ILLUSTRATION FOR RURAL LOCAL BODIES.

Let's suppose the **56%** direct devolution grant to Village Panchayats after deducting the Minimum Lumpsum Grant would be Rs. 1300 Crore **(1300,00,00,000)** in FY 2023-24. This would be provided through a separate budgetary head of account in the BE 2023-24.

The multiplier factor arrived at by the Commission for a Village Panchayat is **0.0000712345**.

The Panchayat President of the village has to just multiply the formula grant amount with the factor. i.e.,

$$1300,00,00,000 \times 0.0000712345 = \text{Rs. } 9,26,048$$

The Panchayat would get Rs. 9,26,048 in addition to the Minimum Lumpsum grant of Rs. 7,00,000.

Thus, the Panchayat would get a total grant of **Rs. 16,26,048**.

Similar factors have been arrived at for all District Panchayats, Block Panchayats and Village Panchayats.

ILLUSTRATION FOR URBAN LOCAL BODIES

Let's suppose the **33%** direct devolution grant to Town Panchayats after deducting the Minimum Lumpsum Grant would be Rs. 1600 Crore **(1600,00,00,000)** in FY 2023-24. This would be provided through a separate budgetary head of account in the BE 2023-24.

The multiplier factor arrived at by the Commission for a Town Panchayat is **0.0042481742**.

The Chairman of the Town Panchayat has to just multiply the formula grant amount with the factor. i.e.,

$$1600,00,00,000 \times 0.0042481742 = \text{Rs. } 6,79,70,787$$

The Town Panchayat would get Rs.6,79,70,787 in addition to the Minimum Lumpsum grant of Rs. 40,00,000.

Thus, the Town Panchayat would get a total grant of **Rs. 7,19,70,787**.

Similar factors have been arrived at for all Municipal Corporations except Greater Chennai Corporation, Municipalities and Town Panchayats.
